

EMERGENCY INFORMATION

It is crucial that all residents of Meta Christy House (MCH) know how to react in the event of an emergency. This could include but is not limited to a fire, active shooter, or person with a weapon in/around the building or on Campus, weather related or medical emergency. It is particularly important each resident understands how and where to evacuate when an alarm sounds in the building.

EMERGENCY EVACUATION

Emergency Evacuation placards are located on each floor. The placards direct residents to the nearest emergency exit.

- No one should use the elevator in the event of an emergency/when an alarm has sounded.
- **All residents must exit the building to the roundabout (between Evans Hall and 6abc News).**
- **In inclement weather (rain or snow), residents should exit the building to the Parking Garage ground level to the left of the MCH Main Entrance.**
- Designated Personnel will confirm each resident has left the building and all apartments are clear.
- Attendance will be taken for each floor.
- Unaccounted for residents will immediately be reported to the Fire Marshall and Director of Public Safety.

*****Only when the Fire Marshall has deemed it SAFE and residents have received a P.E.N.S. notification, may re-entry into the building occur*****

LOCKDOWN

In certain emergency situations, residents may receive a P.E.N.S. notification to shelter in place in their apartment home. After the situation is deemed safe, another notification will be sent to residents.

If you are unsure or have questions about any of the above, please contact the on-site Leasing Office immediately at 215.970.7755 or the Department of Public Safety at PCOM at 215.871.6351.
